

Enteral Nutrition Products: Specialized

This section includes the criteria for enteral nutrition products designed for use in specific disease states; the products contain intact macronutrients (protein, carbohydrate or fat).

Documentation Requirements To receive authorization for products listed in this section, specific information as documented in the beneficiary's medical record must be supplied clearly on the authorization request or as an attachment to the request. Refer to specifics outlined in this section and in the *Enteral Nutrition Products: An Overview* section in this manual.

Authorization A *Treatment Authorization Request* (TAR) or *Service Authorization Request* (SAR) is required for all enteral nutrition products.

Medical Criteria In addition to the prescription requirement, medical criteria and documentation requirements listed in *the Enteral Nutrition: An Overview* section of this manual, the following medical criteria must be met and documented clearly on, or attached to, the authorization request to receive authorization for Medi-Cal reimbursement.

- Beneficiaries under age 21
 - May be oral or tube-fed
- Beneficiaries 21 years of age or older
 - Tube fed only

Note: Products listed in this section are not a benefit for oral-fed beneficiaries 21 years of age or older. (See Cystic Fibrosis beneficiary exception in the *Enteral Nutrition Products: Metabolic* section in this manual.)

Product Criteria

The following product criteria must be met for each product type and documented clearly on, or attached to, the authorization request to receive authorization for Medi-Cal reimbursement.

For diabetes mellitus, only products listed in this section of the manual are available for authorization.

For other specific disease states, only products listed in this section or the *Enteral Nutrition Products: Elemental and Semi-Elemental*, *Enteral Nutrition Products: Metabolic* or *Enteral Nutrition Products: Standard* sections of this manual are available for authorization.

Note: All eligible tube-fed beneficiaries may be eligible for products listed in any of the enteral nutrition product sections of this manual.
