

Enteral Nutrition Products: Standard

This section lists criteria for standard enteral nutrition products with intact macronutrients. For additional information, refer to the *Enteral Nutritional Products: An Overview* section of this manual.

Authorization

A *Treatment Authorization Request* (TAR) or Service Authorization Request (SAR) is required for all enteral nutrition products.

Medical Criteria

In addition to the prescription requirement, medical criteria and documentation requirements listed in *the Enteral Nutrition: An Overview* section of this manual, the following medical criteria must be met and documented clearly on, or attached to, the authorization request to receive authorization for Medi-Cal reimbursement.

- Beneficiaries under 21 years of age
 - May be oral or tube-fed
- Beneficiaries 21 years of age or older
 - Tube fed only

Note: Products listed in this section are not a benefit for oral-fed beneficiaries 21 years of age or older. (See Cystic Fibrosis beneficiary exception in the *Enteral Nutrition Products: Metabolic* section of this manual.)

Limitations

Products designed for specific age groups should be limited for use in beneficiaries of intended age.

Products designed for ages 1-13 years of age are:

- Boost Kid Essentials (all caloric levels)
- Compleat Pediatric (all caloric levels)
- Nutren Junior
- Pediasure (all caloric levels)

All other products listed in this section of the manual are designed for ages 13 and up.

Note: In rare cases, off-age products may be authorized if medical justification for off-age use is documented and attached to the authorization request.
